		Economic Goal	Yes	No												
		Keep automobile industry jobs in the United States	<input checked="" type="radio"/>	<input type="radio"/>												
		Reduce the price of electric vehicles sold in the United States	<input type="radio"/>	<input checked="" type="radio"/>												
Stop a rapid increase in gasoline prices in the United States	<input type="radio"/>	<input checked="" type="radio"/>														
13	B			E.1.6-8a												
14		<p><u>Plug-in electric vehicles (also known as electric cars or EVs) are connected, fun, and practical.</u></p> <p>Just like a smartphone, you can plug in your EV when you get home and have it ready for you to use the next morning. <u>Since the electric grid is available almost anywhere, there are a variety of options for charging: at home, at work, or on the road.</u></p> <p>But EVs provide more than just individual benefits. EVs can help the United States have a greater diversity of fuel choices available for transportation. The United States used nearly seven billion barrels of oil in 2016, two-thirds of which went toward transportation. <u>Our reliance on oil makes us vulnerable to price spikes and supply disruptions in the global market.</u> EVs help reduce this threat because almost all U.S. electricity is produced from domestic sources.</p>		E.1.6-8a

21	A	E.2.6-8a													
22	<p>The American economic system is based on the private ownership of property. The government does, however, provide some goods and services. Examples include building roads, funding public schools, and paying for the cost of medical care for senior citizens. Nonetheless, choices made by producers and consumers are critical to the economy. <u>Producers create most goods and services, driven by the desire to make a profit.</u> Consumer demand also plays an important role. <u>Individual decisions in the marketplace play the most important role in producing economic growth.</u></p>		E.3.6-8a												
23		<table border="1"> <thead> <tr> <th>Policy</th> <th>Increase the Price of Goods</th> <th>Decrease the Price of Goods</th> </tr> </thead> <tbody> <tr> <td>Embargo</td> <td><input checked="" type="radio"/></td> <td><input type="radio"/></td> </tr> <tr> <td>Subsidy</td> <td><input type="radio"/></td> <td><input checked="" type="radio"/></td> </tr> <tr> <td>Tariff</td> <td><input checked="" type="radio"/></td> <td><input type="radio"/></td> </tr> </tbody> </table>	Policy	Increase the Price of Goods	Decrease the Price of Goods	Embargo	<input checked="" type="radio"/>	<input type="radio"/>	Subsidy	<input type="radio"/>	<input checked="" type="radio"/>	Tariff	<input checked="" type="radio"/>	<input type="radio"/>	E.4.6-8a
